- IDEC is a training and consulting company based in Piraeus, which is the port of Athens. It was founded in 1994 by SME consultants with a huge experience in training and industry and it aims at providing its clients with a wide range of support services.
- IDEC is certified with ISO 9001 standard.
- IDEC's main activities are:
  - Training and Management Consulting
  - Project Management- Project Evaluation
  - European Projects
  - Internet applications
  - Software and multimedia development
- Clients of IDEC are both SMEs and the bigger Greek companies mostly of the industry sectors, Entrepreneurs's Associations, Co-operatives, Universities, Chambers of Commerce / Industry, Trade Unions, Public organisations. Our personnel are mainly engineers with post-graduated studies and long term industrial experience.

# Training and Management Consulting

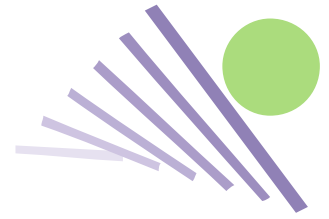

---

- IDEC provides consultancy services to companies of industrial sector. IDEC's main services are business plan, feasibility studies, production planning, personnel management, quality management, and implementation of ISO- 9000 quality and HACCP standards.
- Training organised by IDEC in collaboration with chambers, associations of entrepreneurs or individual companies is either of short or longer duration on topics such as business plan, marketing, work study, production planning and control, costing, technical and managerial issues, quality control, innovation, learning to learn, training of trainers, ISO 9000, HACCP etc.
- For this purpose, IDEC has developed a series of methods, games, manuals and multimedia software tools.

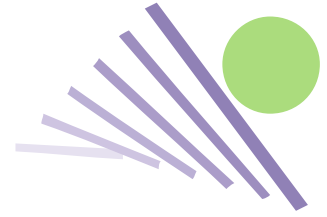

# European Projects

---

- In the framework of the above services, IDEC participates and/or consults its customers (organisations and SMEs) to participate in European projects, in order to expand their activities.
- The projects that IDEC has participated as project leader, partner or consultant are R&D projects (IST, EESD), TENTELECOM, Leonardo Da Vinci, projects financed by DG of Employment, DG of Environment and DG of Enterprises.
- IDEC has participated in the past years in a number of programmes and initiatives.
- Full list of European projects is available.

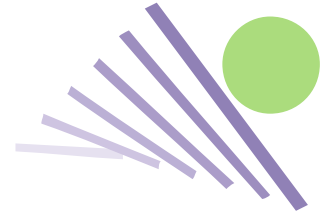

# Internet Applications

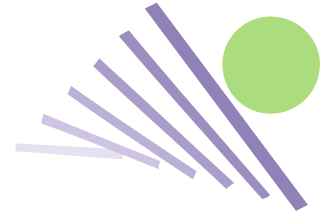

- The development of internet implies its use as a communication, learning and business tool. IDEC take advantage of new technologies and propose solutions for the utilisation of new technologies. Among our services are:
