THE EUROSEA PROJECT IS UNDERWAY

The following activities are carried out under the project:

- Socio-economic analysis of fish and seafood cannery sector in the European Union.

Following the elaboration of different studies relating to the socio-economic status of the fish and seafood cannery sector in Finland, Greece, Italy, Portugal and Spain by the corresponding partners, a comparative analysis of the sector in all these participating countries is prepared.
- Editing, translation into the languages of the partners, and publication of a brochure relating to the project.
- Editing and publication of a first newsletter, focusing on the different activities that will be developed during the project and on the results achieved.
- Creation of project's web-page: www.eurosea.eu
- Mid - term seminars, open to the public, will be held at the home countries of all partners aiming at dissemination of the project's effects and enhancing awareness of the results among the main target groups. Please visit the section "Seminars" of our web page.
- Professional profile definition and training offer report:

A report about Professional profile definition and training offer in all partners' countries of the project is undertaken.

Each partner carried out 10 interviews to experts related to VET system and professional qualifications and related to the fish and seafood sector

ACTIVITIES COMPLETED

Three meetings were held among the partners: in Madrid in January 2010, Palermo in May 2010 and in Seinajoki in October 2010.

Two seminars were held in Glyfada – Greece on 2-3/10/2010 and in Santiago de Compostela – Spain on 27/10/2010.

During these two Seminars:

- The summary, the specific objectives and the target groups of EUROSEA project was presented
- The Socio-economic analysis of fish and seafood cannery sector in the European Union, carried out by ANFACO - CECOPESCA was presented

NEXT STEPS

- Mid term seminars in Finland, Portugal and Italy on November 2010
 - Partner's Meeting in Oporto – Portugal on March 2011
 - Partner's Meeting in Piraeus – Greece on June 2011
 - Final seminar in Greece on June 2011
 - Elaboration of the European reference tool for professional qualifications in the fish and seafood cannery sector.
The tool will focus on qualifications of the sector corresponding to the professional profiles and competences, as well as references of these qualifications with the EQF.
The tool will be validated by Discussion group with 6-8 experts from the entrepreneurs' associations, public administration and entities related to VET system and professional qualifications, managers and human resources technicians of the companies of the sector, etc.
 - Report on External validation of the European Reference Professional Qualification Tool
