Lessons of tolerance- inclusive teaching of adults

At the end of the project we introduce the training materials. Methodology guide: 'Lessons of tolerance- inclusive teaching of adults' contains set of innovative methods used to provide training on issues of tolerance, social diversity and anti-discrimination. The guide is published in the electronic version in the form of an

open training plan with numerous "examples of life" proposals teaching materials, explanation of concepts and proposals to introduce elements of the anti-discrimination education. Training is devoted to national and ethnic minorities, refugees, religious tolerance and outlook. The training materials are the main product of REaCT: Raising Equality and Cultural Tolerance project. On European scale the project directly addressed common challenging issue in all European countries which is reluctance to migrants. To reach the project objectives partners' institutions searched for innovative teaching methods that were tested in this specific context. Those methods were gathered in the training Pack available on-line, ready to implement and use by adult training centres across Europe. The design of the training module and manual was a direct result of the teachers working experiences. All modules are available in five languages: English, Greek, Italian, Polish and Portuguese. We invite you to use them during your lessons and hope that it meets your expectations.

FINAL CONFERENCE and Meeting hosted by LUETEC

Final conference summarising the project and the results took place on the 3rd of October 2019 in Naples. We were hosted by director of the Istituto di Istruzione Superiore Enrico De Nicola. Welcome led by the school's headmaster Stefano Zen which

introduced to the subject of intercultural understanding and tolerance presenting the history of the idea of tolerance through the centuries: from Erasmus of Rotterdam through Voltaire to the present years in Europe which led to the creation of the Erasmus+ project in 1987. After that, Maria Giovanna Romaniello, president of LUETEC, hosting partner of this meeting, introduced the REACT project topic to the audience (teachers, adult people, and students of the Enrico De Nicola Institute). Then Ewelina Firszt presented the aims, objectives and main results of the REACT project. This was continued by manual presentation as a main result of the project. Every partner presented method and task created by themselves. During coffee break there was discussion among young and adult learners and educators. After the break a PPT presentation and comment about Inclusive teaching for adults was delivered by Maria Giovanna Romaniello, in particular she presented the lessons of the manual which are about the pre-vention to Hate speeches in all its shapes. Then she left the word to the professor Luigi Guadagni who spoke about tolerance education and multicultural education in different educational contexts and summarised the topics of the event underlining how is important for the community of the school such as teachers and students, to take part in Erasmus projects to develop intercultural competencies. Concert for tolerance: local artist performed Neapolitan traditional songs.

During the stay in Naples partners visited Art33 NGO in San Giovanni a Teduccio. Association representative presented the Art33 experience about inclusiveness and tolerance education. Partners learnt about the good practices of teaching tolerance through culture and arts to disadvantages people in a difficult area such as the suburban area of Naples.
